Part 1 General Education B. pistils in the flower **150 QUESTIONS With ANSWERS** C. root hairs in the epidermis 1. Rennie Boy believes that everything that D. xylem in the stem happens in this world has a cause or a reason. 10. Which statement is true? A. $5-\sqrt{}$ is a rational number. What scientific attitude is seen in his actions? A. curiosity B. b. 0 is a positive number B. firm set of beliefs C. $3-\sqrt{1}$ is a real number. D. $4-\sqrt{1}$ is an irrational number C. honesty D. critical-mindedness 11. If a die is rolled, what is the probability of 2. it never recycled any waste materials, the getting a number divisible by 2? company's environmental record was not A. 1/6 B. 1/2perfect. C. 1/4 A. For B. In that D. 1/3 C. With 12. Why do mothers usually soak meat in pineapple juice before cooking it? D. Due to 3. Our guest of honor was a loquacious speaker. A. It makes meat tender. Loquacious means: B. It removes the bad odor. A. reserved C. It improves the taste of meat. B. verbose D. It preserves the natural taste of meat. 13. What is considered the earliest form of C. reticent D. spiritless writing in the Philippines? 4. The sociological concept of home for most A. Abakada Filipino is the presence of _____. B. Roman alphabet A. families with boarders in addition to the C. Alibata family members D. Balitaw B. nuclear family and extended families 14. Most asteroids are found between the two C. families with illegal light and water planets: A. Venus and Earth connections B. Earth and Mars D. families with pet dogs and cats 5. "A man is known by the company he keeps." C. Mars and Jupiter This is an example of a . . D. Jupiter and Saturn 15. A wood frame for pouring concrete has an A. report B. rule interior perimeter of 14 meters. Its length is one meter greater than its width. The frame is to be C. poem D. proverb braced with twelve-gauge steel cross-wires. Assuming an extra half-meter of wire is used at 6. Which of the following is the ultimate purpose of Human Right Education? either end of a cross-wire for anchoring, what A. to identify threats of human rights length of wire should be cut for each brace? B. to generate awareness of one's basic rights A. 6 m C. to check on abuses in the exercise of human B. 7 m C. 8 m D. to understand and change conditions which D. 12 m give rise to human rights violation 16. New students at the shop should bring _____. 7. The members of the federation of cooperatives A. hammers wrenches and screwdrivers B. hammers, wrenches, and screwdrivers A. primaries C. hammers, wrenches and screwdrivers B. secondaries D. hammers wrenches, and screwdrivers C. natural persons 17. The army's retreat was D. primary and secondary cooperatives IGNOMINICUSFUL. This means _____. 8. Be sure to fill ____ the forms correctly. A. reputable B. honorable A. over B. in C. shameful C. on D. mysterious 18. Ibigay ang tayutay na nagamit sa sumusunod: D. with

9. Vascular tissue that transports water in leaves connects directly to which of the following? A. likaw ang payong ng aking buhay - silungan ng init - hatid ay proteksyon sa panahong masungit A. simile

C metapora D agalibat-wika 19. Which of the following BEST demonstrates the greenhouse principle? A a heated aquarium B. a car with rolled-up windows C a microwave oven D. a solar battery-powered calculator D. 3 which enables the computer to communicate with other computers over the telephone? B. declared an open house B. declared an open house B. declared an abliday C declared bankruptcy D. 1. The Rizal Day celebration reminds us about heroes worth Heroes worth B. a car with rolled-up windows C reading about D. studying C roading about D. studying C roadi	B. personipikasyon	28 tell her professor next time.		
19. Which of the following BEST demonstrates the greenhouse principle? A. a heated aquarium B. a car with rolled-up windows C. a microwave oven D. a solar battery - powered calculator B. declared an open house B. declared an open house B. declared an open house C. declared an abankruptcy D. fire blank was swarmed with depositors. The bank C. declared an abankruptcy D. fire blank was swarmed with depositors. The bank C. declared an abankruptcy D. fire blank was swarmed with depositors. ratings for acts not of poor scholarship.	in the class?
B. Refrain from discriminating high and low	A. 81
achievers in the classes they handle.	B. 31
C. Refrain from influencing corporal punishment	C. 21
and make it a basic for deductions in scholastic	D. 11
ratings.	129. Ibigay ang aspekto ng pandiwa sa
D. Refrain from segregating the fast and slow	sumusunod na pangungusap. Mag-aral sa bahay
learners for convenience in rating them.	ng mga araling ukol sa agham at teknolohiya.
121. Which of the following is expressed clearly,	A. pawatas
effectively states the idea, and has no structural	B. kontemplatibo
error?	C. imperpektibo
A. A strange car kept blinking the lights at us as	D. perperktibo
he followed closely.	130 taong masipag sa loob ng bulwagan.
B. A strange car followed closely, and he kept	A. May
blinking his lights at us.	B. Mayroong
C. A strange car followed us closely, and its	C. A at B
driver kept blinking his lights at us.	D. Wala ang sagot sa mga pagpipilian.
D. A strange car, blinking the lights at us,	131. Who has greater moral responsibility and
followed closely.	why? The lazy master teacher who does not
122. Which of the following is the catalytic	teach well or the beginning teacher who is
converter on cars in the control technology?	groping while she teaches and so does not teach
A. carbon monoxide	well either.
B. carbon dioxide	A. The master teacher, who is older and more
C. nitrogen dioxide	experienced.
D. sulfur oxide	B. The master teacher, who is expected to have
123. What type of cooperative provides	more knowledge and freedom.
assistance to general public such as	C. Cannot be determined. Age, experience, or
transportation, health and housing?	freedom does not necessarily make some one
A. consumer	more or less morally responsible than the other.
B. producer	D. Both are equally morally responsible.
D. producci	D. Dom are equally morally responsible.

132. Which of the following is expressed clearly, C. can effectively states the idea, and has no structural 140. One package is 100 pounds, and the other is 150 pounds. The weight of the second package is error? A. I would not want to be he. how many times that of the first? B. I would not want to be himself. A. 1½ times heavier C. I would not want to be themselves. B. ½ as heavy C. none of these D. I would not want to theirselves. 133. Alin and tamang babala sa pagtatapon ng D. 10 pounds heavier 141. Excursions are encouraged to allow A. Gamitin and basurahan sa inyong bahay, participants to see places. All the 400 personnel huwag dito fell ill. Doctors' laboratory findings traced the B. Dito and tambakan ng basura cause to C. Huwag mag-tapon ng basura dito A. congestion on the bus D. Huwag mag-ipon ng basura dito B. food poisoning 134. 166. Which is the MOST important C. excitement perceived need and problem of the Filipino D. excessive fat 142. Which of the following facts support the Big family? A. Unemployment or financial problem Bang theory's explanation of the creation of the B. Proneness to vices universe? A. The universe does not expand nor contract. C. Over protectiveness of children D. Double standard on the roles of male and B. The universe seldom expand. C. The universe will have background radiation. female D. he universe has no beginning nor end. 135. Which of the following statements about living things is false? 143. In a university, the ratio of female A. All living things use energy to function. professors to the male professors is 8:5. If there B. All living things are composed of cells. are 75 male professors, how many are female C. All living things have a nervous system. professors? D. All living things are capable of reproduction. A. 120 136. Robert Frost wrote the poem "Acquainted B. 180 with the Night" from which the stanza is taken: C. 225 I have been one acquainted with the night. D. 375/8 I have walked out in rain-back in rain. 144. He____ his leg while he ____ rugby. A. was breaking - played I have out walked the farthest city light The poet in the stanza talks of B. broke - was playing A. isolation and loneliness. C. breaks - is playing 145. Someone wrote: "Environment relates to B. happiness in having been acquainted with the the profound relationship between matter. night. C. joy getting out of the house. nature, and society, and in such a context, ICTs D. youthful delight playing in the rain. bring new ways of living in a more 137. What form of government is characterized interconnected society, all of which reduces our by the separation of powers? dependency on matter and affects our A. Parliamentary relationship with nature." What does this B. Presidential convey? C. Aristocracy A. Environment and ICT are poles apart. D. Monarchical B. ICT impacts on environment. 138. Which is the BEST evidence that helium gas C. Environment affects ICT. is lighter than air? D. ICT brings us away from an interconnected A. Helium has the lowest boiling point of all society. 146. mantle elements. B. Helium atoms do not combine with other air A. the thickest layer of the Earth B. a process where one plate is forced under another C. Helium-filled balloons rise in air. D. By volume, helium makes up only 0.0005% of C. the blanket of air surrounding the Earth D. describes how different types of rocks are

> 147. "Heto na, heto na, heto na, /wahh! Doo bidoo bidoo, bidoo." Alin ang nabuong salita o tunog sa linya na nabuo ayon sa teoryang

formed

139. I ____ get up at six o'clock this morning with

much difficulty.

B. managed to

A. could

A. wahh
B. heto
C. na
D. doo bidoo
148. A town that is located is a location
that should have most nearly twelve hours of
daylight and twelve hours of darkness during
December.
A. halfway between the Equator and the South
Pole
B. close to the Equator
C. close to the North Pole
D. close to the South Pole
149. And now for this evening's main headline:
Britain another Olympic gold medal!
